1. NORMATIVE REFERENCES

- Reg. CE 1935/2004
- Reg. UE 10/2011

2. DOCUMENTATION REFERENCE

Technical report “RT” by RUV ECO LAB n° 199-15LB issued on 20/11/2015

3. EVALUATION PROCESS

Tests are conducted by independent and accredited laboratory according to applicable requirements as defined in section one. The testing is only valid for the tested specimen. In this regard it has been identified and tested the most critical type version relating the presence of most extensive presence of main components used for all products range to be tested, whose positive outcome is shown in the attached report as ref. in section one

Process control requirements are besides applied by

- Internal incoming materials conformity inspections;
- Certified plant procedures;
- Third-party inspections.

Product control requirements are besides applied by

- Source water receiving and monitoring;
- Water storage and monitoring;
- Permanent Biofilm Prevention (where applied);
- UV disinfection (where applied);
- Optional filtration;
- Quality control and assurance.

4. SUMMARY TEST RESULTS

Reported results show the highest level of each substance detected at or above the MRL* in representative finished product samples and satisfy the European Level Limits

**MRL = Minimum Reporting Limit.*
