

We're on the home straight.....

Creating a legacy for generations to come

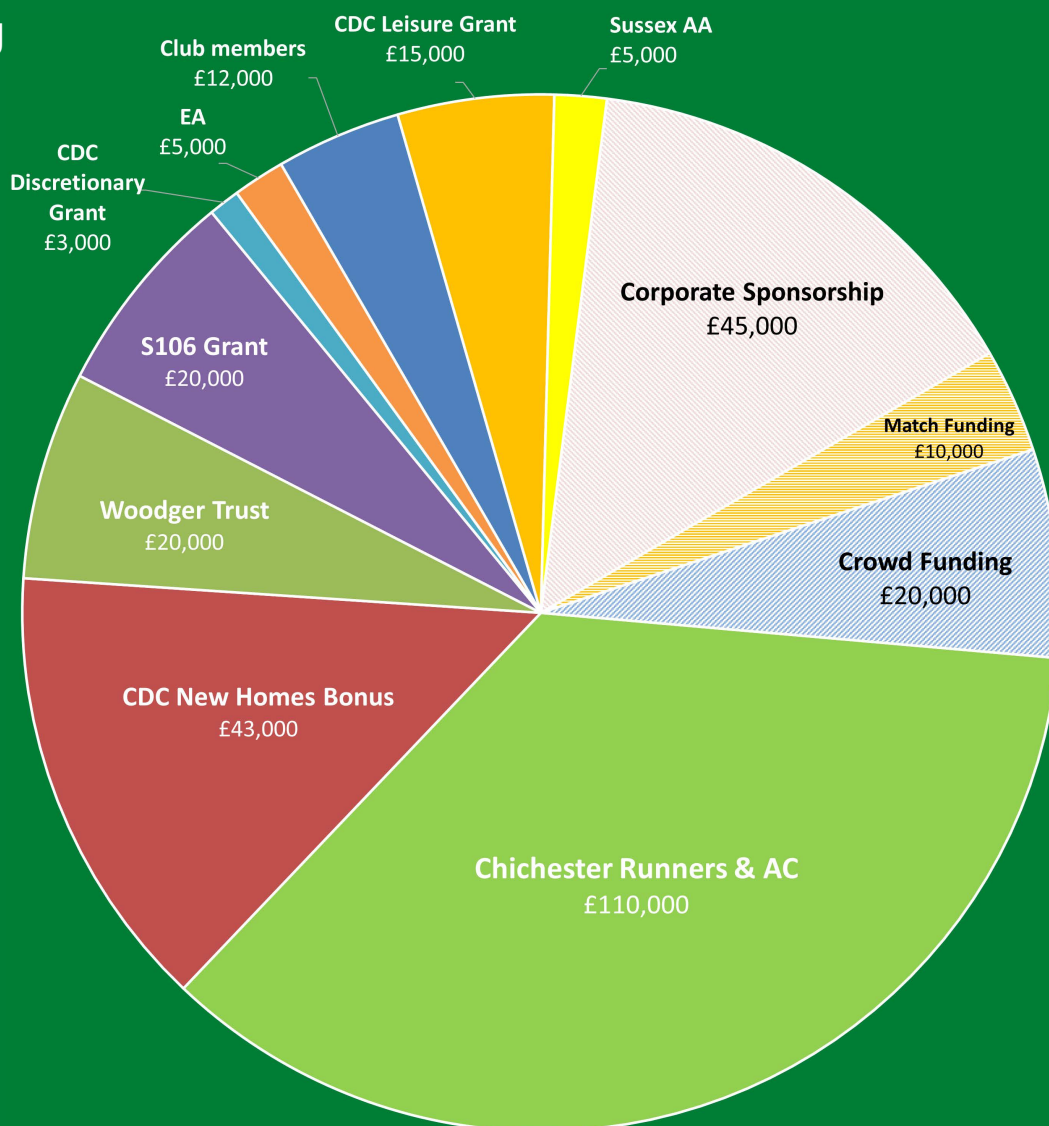

Help us over the line....

CHICHESTER
RUNNERS & A.C.

Funding

We are close to awarding the contract for the construction of our 300m all weather training track, but we need your help to get us over the line. We are therefore offering the opportunity for members of the club and public to sponsor a defined metre length of track, at £100 per metre, less than an average pair of running shoes!

In return, as well as our eternal thanks, you will receive a certificate with the plan of the track showing the section you have sponsored, and your name added to a permanent display board within the pavilion showing the track and everyone who has contributed, unless you wish to contribute anonymously.

A further incentive is that if we manage to raise £20K through this initiative then Sport England will add a further £10K to the total. To access this funding we need as many people as possible to sponsor a metre. If you are a couple or family sponsoring more than a metre, please make separate payee payments for each metre.

In the event that for whatever reason the track is not built, your sponsorship will be refunded in full
