

Adult Learning Disability Teams

Support for family carers of adults with a Learning Disability

Who are we?

We are specialist health professionals - Learning Disability Nurses, Psychologists, Occupational Therapists, Speech and Language Therapists, Physiotherapists and Psychiatrists.

What can we do?

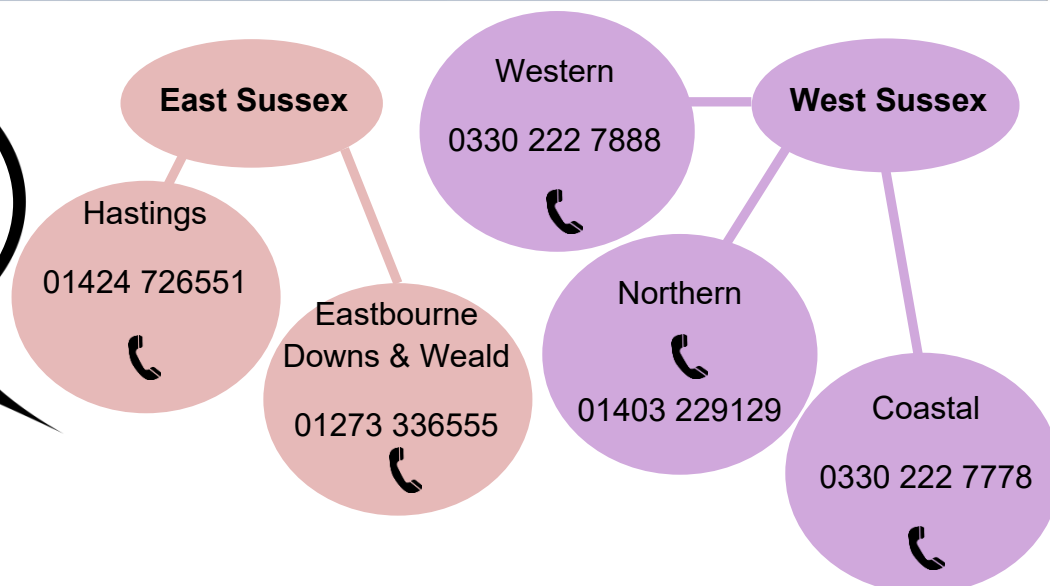

We are hearing from you what a difficult time this is for many families and carers. We wanted to let you know that we are still here to support the person you care for with their communication, behaviour, physical and mental health. We can support you with these health issues directly and provide useful information to help.
