5 year extended warranty

All our freestanding stoves come with a 5 year extended warranty. To receive your extended warranty your stove must have been purchased from an authorised stockist and your warranty registered with FDC (UK) Limited within one month of the installation date. Only people who are fully trained and suitably registered should install your stove. It is also a condition of the extended warranty that your stove is regularly serviced (every 12 months) by a suitably registered engineer. Records and receipts of annual services will be required in the event of a warranty claim during the period of the extended warranty.
