

Minimise Your Waste Maximise Your Savings

APV260 Half Mill Size Baling Press

Specification

The APV260 Baling Press is ideal for those seeking to minimise the space taken up by waste products and make it more manageable.

With fast cycle time, large loading aperture, heavy duty compaction and low noise levels, The APV260 Baler is also the perfect choice for those keen to reap the benefits of recycling whether improving your carbon footprint or receiving payment for any recycled materials.

The balers are easy to operate, safe to use and backed by a network of our own engineers to ensure maximum reliability.

Technical Information

Compaction Force	260kN
Power Requirement:	16A 3Ph + N + E Socket outlet fused at 16Amp D type with local 30 Milliamp RCD protection (If you have an existing supply that doesn't match this specification, please contact technical@capitalcompactors.co.uk to check if it's usable or discuss a solution)
Box Size L x W x H	1200mm x 800mm x 1550mm
Loading Aperture	1200mm x 600mm
Completion Time + Return Stroke	50 Seconds
Bale Weight	300 - 400kg
Bale Size	1200mm x 800mm x 1000mm
Binding	4 times with binding tape
Locking Door	Hand Wheel
Machine Length x Width x Height	1650mm x 1150mm x 2150mm
Transport Height	2150mm
Machine Weight	1600kg
Colour	RAL 5018 and 5007 - Austropressen Blue

The details provided in our specification sheets are for your general information and use only. They are subject to change due to the continual design and build development.
