NEW AND EXCLUSIVE TO YUU!

It Doesn't Hurt To Have Smooth Skin

Soprano hair removal solution offers several incredible advantages to other available solutions, due to its unique combination of cutting-edge technologies, extra large applicator and advanced cooling system. These features let you feel fabulous fast – pain free!

The Beauty of 3

Featuring its exclusive 3D technology, Soprano combines the three most effective laser wavelengths into a single applicator, simultaneously targeting different tissue depths and anatomical structures within the hair follicle. This means that different levels within the skin are targeted all at once, leading to a much more effective treatment – and skin that stays hair-free longer.

Say Freeze!

Forget about pain or discomfort. Soprano includes a breakthrough cooling system, called ICE Plus that has been uniquely designed to keep your skin cool throughout the entire session. Sit back and chill out with a smoothie, as your skin becomes smooth and silky.

3-2-1 Smooth!

Another amazing benefit of Soprano is its extra-large TRIO 4cm² applicator. This means that the coverage area is much bigger, significantly shortening treatment times and making the entire hair removal process much more comfortable and convenient. You'll be out and about in less time than ever!

Please note: an essential patch test at the cost of £20 must be carried out prior to any treatment to determine Laser effectiveness and suitability for your skin. This cost is redeemable against the purchase of future Laser treatments.

Waxing & Threading

Lycon Hot Wax

Lycon is the latest waxing brand favoured by A-listers. Formulated using a series of aromatherapy ingredients, Lycon Hot Wax is a gentler yet more effective treatment which can remove hairs as short as 1mm. This is a low temperature procedure where the wax shrink-wraps around the hair, pulling it out of the follicle (as opposed to pulling the skin). The result is much smoother skin – perfect for sensitive areas!

Dermapen™ & CryoPen™

One technology that has been proven to deliver amazing results is the Dermapen™. The treatment is a form of collagen induction therapy where a series of needles penetrate the skin causing thousands of micro injuries at a vertical angle using a specialist medical device, for both faster and more precise needle penetration. The procedure leads to increased collagen production, which effectively repairs scars, reduces hyper-pigmentation and renews tired looking skin.

The Dermapen™ has revolutionised micro skin needling, making it easier, safer and less painful to get maximum results compared with traditional Derma Roller skin needling. The results are more extraordinary, longer lasting and treatment time is faster, making this a top choice for anyone looking to achieve younger and smoother skin. The benefits of Dermapen™ Treatments are multiple, and the most effective ones are:

- Skin Tightening, Natural Collagen
- Induction, Lifting & Rejuvenation
- Treats Active Acne & Acne Scars & Wound Healing
- Reduces Wrinkles & Fine Lines
- Minimises Pore Size
