It Doesn't Hurt To Have Smooth Skin

Soprano hair removal solution offers several incredible advantages to other available solutions, due to its unique combination of cutting-edge technologies, extra large applicator and advanced cooling system. These features let you feel fabulous fast – pain free!

- **The Beauty of 3** Featuring its exclusive 3D technology, Soprano combines the three most effective laser wavelengths into a single applicator, simultaneously targeting different tissue depths and anatomical structures within the hair follicle. Skin stays hair-free longer.
- **Say Freeze!** Forget about pain or discomfort. Soprano includes a breakthrough cooling system, called **ICE Plus** that has been uniquely designed to keep your skin cool throughout the entire session.
- Another amazing benefit of Soprano is its extra-large **TRIO 4cm² applicator**. This means that the coverage area is much bigger, significantly shortening treatment times and making the entire hair removal process much more comfortable and convenient.

Please note: an essential patch test at the cost of £20 must be carried out prior to any treatment to determine Laser effectiveness and suitability for your skin. This cost is redeemable against the purchase of future Laser treatments.

Titanium Soprano NIR Skin Tightening

Near-Infrared skin tightening with Titanium Soprano is an effective treatment for treating loose skin on many areas of the body. It's commonly used for the **face, neck, upper arms, abdomen and hands**. It works by passing a safe near-infrared light over the skin, gradually heating the water content deep in the tissue below the skin. This causes collagen fibres to contract and tighten, resulting in the smoothing out fine lines and tightening of sagging skin.

- During the treatment you will feel a warm sensation, but the outer skin is kept cool.
- You can apply make-up immediately, and you would expect to resume normal activities straight away. Generally, the best results are achieved after 5 treatments, with 2-4 weeks between visits.
- After a course of treatment, you may wish a top up treatment every month to combat the natural ageing process.
