It Doesn't Hurt To Have Smooth Skin

Soprano hair removal solution offers several incredible advantages to other available solutions, due to its unique combination of cutting-edge technologies, extra large applicator and advanced cooling system. These features let you feel fabulous fast – pain free!

- **The Beauty of 3** Featuring its exclusive 3D technology, Soprano combines the three most effective laser wavelengths into a single applicator, simultaneously targeting different tissue depths and anatomical structures within the hair follicle. Skin stays hair-free longer.
- **Say Freeze!** Forget about pain or discomfort. Soprano includes a breakthrough cooling system, called **ICE Plus** that has been uniquely designed to keep your skin cool throughout the entire session.
- Another amazing benefit of Soprano is its extra-large **TRIO 4cm² applicator**. This means that the coverage area is much bigger, significantly shortening treatment times and making the entire hair removal process much more comfortable and convenient.

Please note: an essential patch test at the cost of £20 must be carried out prior to any treatment to determine Laser effectiveness and suitability for your skin. This cost is redeemable against the purchase of future Laser treatments.
