

Practice Lists for areas that provide extended services

Normally patients will be referred into the appropriate service by the practice that sees them for the sight test. This will not happen if the patient is seen out of the Greater Manchester area and may not happen if a local practice does not use the Opera referral system, which would direct the patient for them.

Click the appropriate area's service for details of practices

Cataract counselling and referral

[Practices in Bolton providing cataract referral](#)

[Practices in Bury providing cataract referral](#)

[Practices in Manchester providing cataract referral](#)

[Practices in Oldham providing cataract referral](#)

[Practices in Salford providing cataract referral](#)

[Practices in Stockport providing cataract referral](#)

[Practices in Tameside and Glossop providing cataract referral](#)

[Practices in Trafford providing cataract referral](#)

Glaucoma Enhanced Referral Service (GERS)

The Glaucoma Enhanced Referral Service now uses a Single Point of Access (SPoA) for patients. Greater Manchester patients eligible for GERS should be referred to the PES GERS single point of access (SPoA) and **NOT** directly to a GERS practice. You should use the: "**PRIMARY EYECARE SERVICES – GLAUCOMA ENHANCED REFERRAL SERVICE (GERS)**" option on Opera's GOS18 module.

Remember that hospitals may reject referrals if they have not come through the correct pathway.

Patients who should be referred to GERS are those with a GP in Bolton, Bury, Manchester, Oldham, Salford, Stockport, Tameside and Trafford
