

## Cup/disc ratio vs Disc diameter

G Macalister<sup>1</sup> PhD FCOptom, ST Hasan<sup>2</sup> FRCS, C Edelsten<sup>3</sup> FRCS FRCOphth MRCP

True diameter	1.2	1.5	1.8	2.2
<b>Measured diameter</b>				
Digital Widefield	0.9	1.1	1.3	1.6
90D and Superfield	0.9	1.1	1.4	1.7
78D	1.1	1.4	1.7	2.0
60D	1.4	1.7	2.1	2.5
Digital High Mag	1.6	2.0	2.3	2.9

Magnification Factor Digital Widefield = 1.4, 90D & Superfield = 1.3, 78D = 1.1, 66D = 1.0, 60D = 0.9, Digital High Mag = 0.8.

Disc diameter (mm): 1.2, 1.5, 1.8, 2.2

Vertical Cup/Disc Ratio: 0.5, 0.6, 0.7, 0.8

95% Confidence Limit of Normality  $C/D = 0.2$

1.2mm C/D .5    1.5mm C/D .6    1.8mm C/D .7    2.2mm C/D .8
