Lutron Palladiom Finishes

These are different from the standard Lutron range. Some keypads come with metal finished buttons. When using a Focus SB finish (cFS), Focus recommend using the BL - Black buttons.

PALLADIOM PLATE FINISH	COMPATIBLE BUTTON
BL - Black	BL - Black
SN - Satin Nickel	SN or BL
QB - Antique Brass	BL - Black
BC - Bright Chrome	BC or BL
SB - Satin Brass	BL - Black
BB - Bright Brass	BL - Black
BN - Bright Nickel	BL - Black
SC - Satin Chrome	BL - Black
PG - Polished Graphite	BL - Black

Crestron Horizon Finishes

When using the Crestron Horizon keypad in either black or white these can be matched to our MK - Matt Black or MT - Matt White finishes

Important Note:

All finishes are produced using a handcrafted process which introduces unique variations in both hue and graining.

These finishes are not produced by Lutron or Crestron and may differ.

There will be natural variation from unit to unit and batch to batch.

All bespoke finishes, Polar Bear Design will need to be supplied with a sample to match. The matching process will add significant delays

Please refer to the price list for purchasing terms.
